# Test Guide: Criterion 5

Faculty Information. About 10 minutes.

**Before you start**

1. Open **http://127.0.0.1:5500** in your browser (type `127.0.0.1`, not localhost).
2. Click **Sign in**. Email `hod@college.edu` Password `password123`
3. In the menu on the left, click **Criterion 5**.
4. The test files are in the folder **Test_Files/C5** that came with this guide.

If a number looks old, press Ctrl+F5 (Windows) or Cmd+Shift+R (Mac).

## Step 1: See where you start

Click **Evaluate Criterion 5**. You should see a total of **80 / 100**. Rows 5.1, 5.2 and 5.3 already pass because they are worked out automatically from the faculty records. 5.4 shows a warning and 5.5 fails because they need your numbers.

## Step 2: Type the numbers

**How to type a value:** on the row click **Inputs**, type exactly what is shown in the box named, then click **Save and re-evaluate**. Copy and paste the text to avoid typing mistakes. Do the rows **one by one, in order**; do not skip a row.

| Row | Box name and what to type | You should see |
|---|---|---|
| 5.1, 5.2, 5.3 | nothing (automatic from faculty records) | **PASS** 30, 25 and 25 |
| 5.4 | `provision exists: true`<br>`yearly hours: [60,55,50]` | **PASS** 10 / 10 |
| 5.5 | `A: 0` `B: 0` `C: 1` `D: 2` `E: 3`<br>`boundary resolved: true`<br>(leave the grey "Auto" boxes as they are) | **PASS** 10 / 10 |

## Step 3: Upload the documents

1. Scroll down below the requirements table to the box called **Evidence documents**.
2. Click **+ Upload evidence document**.
3. Type any title, choose a file, and in **This document proves requirement** choose the **same number** as the file name (file `5.1_...` goes with requirement 5.1).
4. Click **Upload evidence**. The file appears with a green tag **Proves 5.1**.

Upload all 5 files (5.1 to 5.5).

## Step 4: Look around

- Tab **Faculty Roster & Profile Rings**: everyone counted, with their qualifications.
- Tab **SFR, FQI & Cadre Gauges**: the numbers behind each score (60 students, 7 faculty).
- Tab **Workload & Assignments**: who teaches which subject.

**You passed the test if:** Evaluate Criterion 5 shows **100 / 100** and all 5 files show **Proves**.
