AI-NBA Accreditation System — Role Dashboards Guide

Section-by-Section Blueprint: Complete breakdown of exact sections in Faculty, HOD, and Administrator dashboards, with a one-sentence functional explanation for each section.

1. Common Sign-In Workflow & Automatic Role Redirection

Workflow: Users authenticate through a single common login page (/login.html) with email and password (no manual role selector). The backend authenticates the user, reads the assigned role from GET /api/v1/auth/me, and immediately navigates them to their authorized dashboard. All routes are protected by guardRoute() to prevent cross-role unauthorized access.

#	User Account	Role Detected	Dashboard Destination	Access Boundary (1-Sentence Function)
1	**faculty@college.edu**	FACULTY	**/dashboards/faculty.html**	Restricted to assigned teaching courses, mentee students, personal profile, and research contributions.
2	**hod@college.edu**	HOD, FACULTY	**/dashboards/hod.html**	Authorized to oversee, verify, approve, or return submissions for the Department of CSE.
3	**admin@college.edu**	ADMIN	**/dashboards/admin.html**	Has institution-wide authority to manage users, departments, audit logs, authorized overrides, and backups.

2. Faculty Personal Workspace (/dashboards/faculty.html)

Dashboard Scope: Dedicated personal workspace for faculty members to manage teaching workload, cohort assessments, student mentoring, credentials, and research evidence.

#	Section / Tab Name	Criterion	1-Sentence Functional Explanation
1	**Dashboard Overview**	Overview	Displays personal summary KPI cards (Assigned Courses, Total Submissions, Pending Approvals, Approved, Rejected, Action Required) for quick workload status tracking.
2	**My Courses**	Criterion 3	Lists all subjects assigned to the logged-in faculty member showing course code, name, semester, and active attainment percentage.
3	**Criterion 3 – CO Attainment**	Criterion 3	Evaluates overall cohort attainment across CIE and SEE against the 60% benchmark (80:20 rule) and submits the course assessment package to HOD.
4	**Criterion 4 – Student Performance**	Criterion 4	Enables faculty to view assigned mentee students, monitor CGPA and backlogs, and log continuous counseling and remedial support records.
5	**Criterion 5 – My Profile (FQI)**	Criterion 5	Allows faculty to maintain educational qualifications, academic and industry experience, and upload certificates for 5-day AICTE ATAL FDPs.
6	**Criterion 6 – My Contributions**	Criterion 6	Records personal research publications (SCI/Scopus), patents, sponsored research projects, consultancy, and professional memberships with evidence PDFs.
7	**Upload Documents**	Evidence	Provides a drag-and-drop evidence uploader that automatically generates SHA-256 digital signatures to verify document authenticity.
8	**My Submissions & HOD Feedback**	Workflow	Tracks submission review statuses, displays HOD correction comments, and provides a resubmit modal to send revised records back to the HOD.
9	**Department Criteria (Read-Only)**	Criteria 3–6	Allows faculty to inspect department-wide criteria hubs (C3, C4, C5, C6) in read-only mode to understand departmental accreditation targets.

10	**Profile & Session Logout**	Session	Displays active faculty identification credentials and allows the user to securely terminate their session and clear stored tokens.

3. Head of Department (HOD) Command Center (/dashboards/hod.html)

Dashboard Scope: Departmental governance console for monitoring faculty submissions, verifying course evidence, allocating teaching duties, maintaining SFR, and generating SAR reports.

#	Section / Tab Name	Criterion	1-Sentence Functional Explanation
1	**Department Overview**	Overview	Presents macro health cards for Criteria 3, 4, 5, and 6 alongside summary KPIs (Total Faculty, Students, Active Courses, SFR 20:1, Readiness Score).
2	**Pending Approvals Queue**	Workflow	Serves as the primary verification queue where HOD inspects faculty submissions and chooses to Approve, Reject, or Request Revisions with feedback.
3	**Criterion 3 – Course Allocations**	Criterion 3	Lists all departmental courses and provides an assignment modal for the HOD to allocate subjects and teaching workloads to faculty.
4	**Criterion 4 – Student Performance**	Criterion 4	Tracks batch-wise progression, Academic Performance Index (API), campus placement rates, higher studies admissions, and competitive exams.
5	**Criterion 5 – Faculty Strength & SFR**	Criterion 5	Monitors faculty cadre proportions, verifies Ph.D. Faculty Qualification Index (FQI), and ensures Student-Faculty Ratio remains ≤ 20:1 for max 20 marks.
6	**Criterion 6 – Research & Contributions**	Criterion 6	Reviews departmental research output including SCI/Scopus indexed journal papers, patents, and sponsored research grant funding.
7	**Faculty Management**	Directory	Maintains the departmental faculty directory, profile verification statuses, and tracks submission compliance progress for each teacher.
8	**Document Verification**	Audit	Inspects course files, question paper rubrics, and certificates to ensure all evidence files possess valid cryptographic SHA-256 signatures.
9	**Department Analytics**	Analytics	Displays graphical distributions of CO attainment benchmarks, student progression trends, and faculty contribution metrics.
10	**Generate Reports (SAR)**	Exports	Exports official NBA Self-Assessment Report (SAR) executive summaries in PDF format and full departmental criteria ledgers in Excel (.xlsx).
11	**My Teaching Workspace**	Teaching	Provides direct access for the HOD to their own personal teaching workspace to enter marks and maintain their personal faculty portfolio.
12	**Profile & Session Logout**	Session	Shows authenticated HOD credentials and provides a one-click session logout that clears credentials across browser tabs.

4. Administrator Console (/dashboards/admin.html)

Dashboard Scope: Institutional management console covering all academic departments (CSE, ECE, ISE, ME), user provisioning, RBAC privilege assignment, system audit logs, and database backup verification.

#	Section / Tab Name	Scope	1-Sentence Functional Explanation
1	**Institution Overview**	Institution	Displays institutional macro KPI cards (Total Departments, Faculty, Students, Courses, Readiness Score) and comparative departmental readiness tables.
2	**Department Management**	Departments	Enables administrator to monitor, compare, and manage accreditation readiness progress across all engineering departments.
3	**Pending User Approvals**	Accounts	Houses the faculty self-registration queue where the administrator verifies new registrations and activates or denies accounts.
4	**User Management & Roles**	RBAC	Manages all user accounts and provides one-click privilege buttons to grant or revoke HOD role status and create new institutional accounts.
5	**Faculty & HOD Management**	Directory	Maintains institution-wide directories of faculty and department heads with department filtering and credential status tracking.
6	**Criteria Management (C3-C6)**	Criteria Hubs	Provides cross-department macro views into Criteria 3, 4, 5, and 6 with direct navigation links to institutional criteria hubs.

7	**Audit Logs & Overrides**	Security	Maintains an immutable audit log of all system changes and provides an authorized administrative override modal with mandatory justification logging.
8	**Database Backups & Restore**	Integrity	Generates full database snapshot archives and verifies cryptographic SHA-256 hashes to guarantee data integrity against tampering.
9	**System Configuration**	Settings	Manages NBA Tier-I 2026 Manual parameters, active academic year, institutional benchmark thresholds, and SFR ratio policy limits.
10	**Consolidated Reports (SAR)**	Reporting	Generates institution-wide consolidated Self-Assessment Reports (SAR) covering all criteria for visiting peer review teams.
11	**Document Management**	Storage	Oversees the centralized evidence repository across all criteria, ensuring files comply with official retention policies.
12	**Profile & Session Logout**	Session	Displays administrator profile metadata and allows secure system logout to terminate active authentication tokens.

5. Summary Comparison Matrix Across Dashboards

Functional Dimension	Faculty Dashboard	HOD Command Center	Administrator Console
Governance Scope	Assigned Courses & Mentees	Department of CSE	Entire Institution (All Depts)
C3 Attainment Entry	Inputs Cohort Performance	Verifies & Approves Calculations	Audits Institutional Attainment
Review & Approvals	Resubmits Corrected Records	Approve / Reject / Request Revision	Authorized Audit Override
Course Allocation	Views Teaching Workload	Allocates Subjects to Faculty	Oversees Global Curriculum
User & Role Management	Updates Own Profile (FQI)	Monitors Dept Faculty Roster	Provisions Accounts, Grants/Revokes Roles
Reports & Exports	Personal Course Files	Department SAR (PDF / Excel)	Institutional SAR & Full DB Backups
